

MUST LOVE DOGS *On Leashes*

**For the love of our dogs, safety, and habitat protection,
your dog is welcome here but USING A LEASH IS REQUIRED.**

HERE'S WHY

WILDLIFE:

Ground-nesting birds and wildlife share the trails in this natural place, and are safest left undisturbed.

VISITORS:

Many folks aren't dog-friendly and are uncomfortable being approached by an unleashed dog, even your sweet friend.

SAFETY:

Sadly both people and dogs have been hurt involving unleashed dogs here.

Along with you, your leashed pooch and all the nature lovers who hike here and critters that live here, please enjoy the natural beauty of this nature preserve that you are helping to protect.
